

VLAD DUMITRU MĂRGĂRINT

margarint@nyu.edu
+40732046315

Current position and research visits

2019-2021
2020

Postdoctoral Fellow at NYU Shanghai, mentored by Prof. Gérard Ben Arous.
Research visit at Max Planck Institute for Mathematics in the Sciences, Leipzig.

Education

10/2015-08/2019

University of Oxford, Oxford, United Kingdom

DPhil in Mathematics under the supervision of Prof. Dmitry Belyaev and Prof. Terry Lyons in *Schramm-Loewner evolutions and Rough Paths Theory* under Terry Lyons's Grant: ERC No.291244 Esig, University of Oxford.

2018

Appointed as Research Assistant of Prof. Dmitry Belyaev under the EPSRC Grant EP/M002896/1.

09/2013 - 09/2015

ETH Zürich, Zürich, Switzerland

Graduated Master of Science in Mathematics supervised by Prof. Dr. Antti Knowles.
Thesis: "Proof of the Weak Local Law for Wigner Matrices using Resolvent Expansions".

10/2010 - 06/2013

University of Bucharest, Faculty of Mathematics, Bucharest, Romania

Graduated Bachelor's in Mathematics supervised by Prof. Dr. Victor Vuletescu.
Thesis: "Differential Geometry and General Relativity".

Publications and preprints

9. "Quasi-Sure Existence of the SLE traces and continuity in κ of SLE traces"
<https://arxiv.org/pdf/2005.03152.pdf>

8. "Continuity of Zero-Hitting Times of Bessel Processes and Welding Homeomorphisms of SLE_κ " with Atul Shekhar and Dmitry Belyaev- to appear in ALEA
<https://arxiv.org/pdf/2004.10262.pdf>

7. "Continuity in κ in SLE theory using a constructive method and Rough Path Theory" with Terry Lyons and Dmitry Belyaev- to appear in AIHP (B)
<https://arxiv.org/pdf/2002.08308.pdf>

6. "An asymptotic radius of convergence for the Loewner equation and simulation of SLE traces via splitting" with Terry Lyons and James Foster
<https://arxiv.org/pdf/1912.06424.pdf>

5. "Complex Solutions to Bessel SDEs and SLEs" with Atul Shekhar
<https://arxiv.org/pdf/2001.02735.pdf>

4. "A new approach to SLE phase transition" with Dmitry Belyaev and Terry Lyons
<https://arxiv.org/pdf/2001.10987.pdf>

Updated PDF at <https://vladmargarint.com/resources/pt.pdf>

3. "Convergence to closed-form distribution for the backward SLE at some random times and the phase transition at $\kappa = 8$." with Terry Lyons and Sina Nejad
<https://arxiv.org/pdf/1910.05519.pdf>

2. "Proof of the Weak Local Law for Wigner Matrices using Resolvent Expansions" to appear in 'Theory of Probability and its Applications' by SIAM
<https://arxiv.org/pdf/1808.07092.pdf>

1. "Convergence of Quantum Diffusion in a Random Band Matrix Model" Journal of Statistical Physics, 2018
<https://arxiv.org/pdf/1808.07106.pdf>

Work in preparation

1. "On Aldous' Cover Time Conjecture" with George Andriopoulos
<https://vladmargarint.com/covertime.pdf>

Academic Awards and Honours

2019	St. John's College Oxford Travel Scholarship.
2018	James Fund Travel Scholarship.
2017-2018	Mathematical Institute Department Award, £7000, University of Oxford.
2016	St. John's College Travel Scholarship.
2016	3rd Prize in the Posters Presentations at the UK meeting in Probability, Lancaster University.
2015-2018	EPSRC 1657722 Studentship, University of Oxford.
2014-2015	ETH Zürich Master's scholarship for academic achievement.
2013	Finalist (top 5) at Romanian Student of the year 2013 offered by the Romanian Academy.
2012-2013	Young Researcher Performance Scholarship awarded by the University of Bucharest for the highest undergraduate achievement and research potential.
2012	Dean's Summer Student Scholarship offered by the Physics Department of UCL. Supervisors: Prof. Filipe Abdalla, Prof. Jason McEwen(UCL). I developed algorithms in Matlab for implementing Shapelets mathematical formalism and integrated them in the Compressive Sensing solver.
2010	Bronze Medal -International Olympiad of Astronomy and Astrophysics, China.
2009	Silver Medal -International Olympiad of Astronomy and Astrophysics, Iran.
2009-2010	Member of the extended team of Romania for the International Physics Olympiad (IPhO) in 2009 and 2010.

Presentations

08/2020	Invited talk at the Rough Path Section at the "10th World Congress in Probability and Statistics", Seoul, Korea, 2020 (postponed 2021).
08/2020	Online Talk at the One-World Bernoulli-IMS Conference.
07/2020	Online Talk at the 13th Berlin-Oxford Meeting.
07/2020	Invited Talk at the 15th Franco-Romanian Colloquium in Mathematics.
03/2020	Invited Talk at the NYU Shanghai-Kyoto University Probability Workshop (Japan).
01/2020	Invited Talk at the IMAR (Institute of Mathematics of the Romanian Academy).
01/2020	Invited Talk at the Analysis Seminar -Max Planck Institute -Leipzig.
01/2020	Invited Talk at the Probability Seminar -Freie Universitaet Berlin.
12/2019	Invited Talk at the Probability Seminar - Beijing Normal University.
09/2019	Invited Talk at the Probability Seminar - NYU Shanghai.
08 /2019	Invited mini-course at TU Berlin from the work of my PhD Thesis.
07/2019	Invited Talk at the "The 20th INFORMS Applied Probability Society Conference"-Brisbane Australia.
06/2019	Invited Talk at the Workshop of Young Romanian Researchers in Mathematics-University of Bucharest.
01/2019	Invited Talk at the Probability Seminar-Bielefeld University.
07/2018	Invited Talk at the Summer School "Geometry and scaling of random structures", Buenos Aires, Argentina.
06/2018	Invited Talk at the 9th Oxford-Berlin meeting.
06/2018	Contributed Talk at "Stochastic Processes and Applications" (SPA), Gothenburg, Sweden.
06/2018	Invited Talk at the conference "Conformal Random Geometry and Related Fields", KIAS, Seoul, South Korea.
04/2018	Invited Talk at the "Pathwise SLE Meeting", TU Berlin.
10/2017	Invited Talk at the 8th Oxford-Berlin Meeting, Oxford, United Kingdom.
10/2017	Invited Talk at the Seminar of Stochastic Analysis, University of Oxford.

04/2017	Invited Talk at the workshop “Afternoon meeting in Rough Paths Theory”, University of Reading, United Kingdom.
08/2016	Invited Talk at the 5th Oxford-Berlin Meeting, Berlin, Germany.
07/2016	Contributed Talk at the World Congress of Probability, Toronto, Canada.
06/2016	Contributed Talk at the Research Students Conference, Dublin, Ireland.
06/2016	Poster Presentation at the 3rd BCN Summer School on Stochastic Analysis, Barcelona, Spain.
04/2016	Poster Presentation at the UK Easter Probability Meeting, Lancaster University, UK.

Teaching experience

NYU Shanghai	Mathematical Institute: Calculus (mixed-mode) (Fall 2020), Linear Algebra (online) (Spring 2020), Honors Analysis I (online) (Spring 2020), Calculus I (Fall 2019). Attended the Course Design Studio for online teaching offered by Prof. Jace Hargis (2020). Attended course at the Center for Teaching and Learning offered by Prof. Jace Hargis: An introduction to College Teaching (2019). Nominated for “Making a Difference Award” at NYU.
University of Oxford	Mathematical Institute: Revision classes for Stochastic Differential Equations (Spring 2017), Applied Probability (Spring 2017); Tutor for: Distribution Theory and Fourier Analysis (Winter 2018), Statistics and Data Analysis (Spring 2017, Spring 2018), Statistical Mechanics (Winter 2017), Continuous Martingales and Stochastic Calculus (Spring 2017), Complex Analysis: Conformal maps and Geometry (Winter 2017), Applied Probability (Winter 2017), Stochastic differential equations (Winter 2017), Numerical Analysis (Spring 2016); Teaching Assistant for Master courses: Complex Analysis: Conformal maps and Geometry (Spring 2017), Stochastic Analysis and PDE’s (Spring 2016), Approximations of functions (Winter 2015); Nominated for the University prize “Student-Led Teaching Award”, University of Oxford.
ETH Zürich	Mathematics Department: Teaching Assistant for Methods of Mathematical Physics II (Spring 2015), Analysis I (Fall 2014), Analysis II (Spring 2014).

Editorial Service

Referee for **Probability Theory and Related Fields (PTRF)** and **Electronic Communications in Probability (ECP)**.

Service and Organization

2020	Member of a jury for an international technology competition organized by OMV Petrom and Vodafone.
2020	Organizer of the Course-Design Studio for Online Teaching, Romania.
2019, 2020	One of the organizers of the NYU Shanghai Probability Seminar
2019	Attended Committee meetings at NYU Shanghai
2016-2018	Academic Assistant for Prof. Jan Obłój at St. John’s College: Organization committee for the one-week Conference Robust Techniques in Quantitative Finance, Oxford, September 2018 ; organizing a database in “Papers”, marking collections in Probability and Statistics, giving tutorials in Statistics, writing various codes for simulations.
12/2017	Member of the organizing committee of the 8th Oxford-Berlin meeting The workshop took place in Oxford and gathered researchers working on Rough Paths Theory and Regularity Structures.
11/2017	Member of the selection committee for undergraduate admissions at St. John’s College, Oxford
04/2017	Member of the committee for a Master’s Thesis

Examiner of Patrick Kidger's Master Thesis "Polynomial Approximations of Holomorphic Functions" at the University of Oxford.

12/2016
03/2016

**Member of the organizing committee of the 6th Oxford-Berlin meeting
Preparation for the International Olympiad of Astronomy and Astrophysics**

Training the team for the theoretical exam of the International Olympiad of Astronomy and Astrophysics 2016 by solving various Physics and Celestial Mechanics problems.

Working Seminars presentations

05/2018

Talk at the Reading Group on "Random Planar Waves": Local statistics of lattice points on the sphere by Jean Bourgain, Peter Sarnak and Zev Rudnick: .

03/2018

Talk at the Reading Group "Theory of Regularity Structures": Wick products and renormalization in Regularity Structures.

11/2017

Talk at the Reading Group "Theory of Regularity Structures": Schauder estimates in PDEs and Regularity Structures.

04/2017

Talk at the Oxford Junior Probability Seminar: SLE with Rough Paths Theory.

06/2017

Talk at the Oxford Junior Probability Seminar: Quantum Diffusion and Random Matrix Theory.

04/2016

Talk at the Reading Group "Machine Learning and Rough Paths": Kernel methods in Machine Learning.

Outreach and Public Engagement

2020

Talk at the Romanian Science Festival: "Applied Mathematics in two problems of dynamics: motion of planets and spread of viruses".

2017

Talk at the [The Invariants](#) : "An evening flight over two modern Mathematical Theories: Random Fractal Planar Curves and Rough Path Theory."

2017

Talk at the Oxford Research Forum (organized by the Oxford Romanian Society): Probabilistic and deterministic modelling of "reality" (Markov Chains, Brownian motion and the study of the Brownian Motion Paths in Rough Paths Theory).

2017

Mentor for Romanian Students studying Mathematics on United Kingdom Universities via LSRS mentoring scheme.

2018

Mini-Course at the one-week [Oxford for Romania Summer School](#) in "Fractals".

2017

Mini-Course at the one-week [Oxford for Romania Summer School](#) in "Examples and Counter-Examples in Analysis", based on the book of Bernard R. Gelbaum, John M. H. Olmsted "Counterexamples in Analysis".

2016

Mini-Course at the one-week [Oxford for Romania Summer School](#) in "Basic ideas in Differential Geometry".

2015

Talk at the Oxford Research Forum (organized by the Oxford Romanian Society): Mathematical Theorems on Randomness (Survey talk: Probability and open questions in Random Matrix Theory).

2014

National TV-Series: "Road to Success" interviewed in Season 1, Episode 1.

2012

Second prize and public favorite in the Romanian National Finals-Famelab 2012- presenting "The Universe between Mathematics and Magic- the Gauss Egregium Theorem".

Skills and Interests

Languages:

Romanian: mother tongue.

English: fluent (TOEFL iBT Score 102/120).

French: intermediate knowledge.

Spanish: Basic knowledge.

Chinese: Basic Knowledge (Attending Beginners Classes offered by NYU Shanghai).

IT and Data Skills:

Operating Systems: Linux, Windows.

Programming: Matlab (advanced level), Python, R (medium level).

Others: \LaTeX , Wolfram Mathematica, Papers, Inkscape, Microsoft Office.

Other Interests:

Arts, Football, Tennis. Research oriented discussions and debate events.
